

Forget girls gone wild, the summer makes hair go wild. Once lustrous locks are dry, limp and in need of major TLC due to sun damage and excessive bleach jobs (shout out to Malibu Barbie's everywhere). Send hair to rehab with [Moroccanoil](#). The line of Canadian-based products not only works wonders on distressed locks, but on all hair types.

The secret ingredient is argan oil, a natural antioxidant and UV protector from the argan tree found in the desert region of Argana in Morocco.

Alter your regime to include the **Moisture Repair Shampoo** (\$18.80), **Moisture Repair Conditioner** (\$19.80) and the **Oil Treatment for all Hair Types** (\$39). A tried and tested fave is the **Intense Hydrating Mask** (\$35); a creamy treatment that absorbs into hair to rebuild and reconstruct, making strands touchable again.
